NEW

## Oak Horizon - Interieur Trend Pause

Developed based on the interieur trend Pause Oak Horizon is with its smoky grey surface for a "relaxing" parquet floor. Colour pigments are responsible for the fantastic colour of the surface. We have brushed the surface to emphasis the structure of the wood and the deeper structures of the oak appear somewhat darker which creates a warm and relaxing look. Overall, the characteristic structures of the oak are visible. The planks are chamfered.

# OAK WARM COTTON

NEW

## Oak Warm Cotton - Interieur Trend Pause

The Oak Warm Cotton really is dedicated to the new Trend with its warm "sandy" grey tone. The pigmented surface still allows the typical oak colour and structure to shine through. The surface is brushed and the planks are chamfered on the longitudinal sides.

# OAK MILD GREY

NEW

## Oak Mild Grey - Interieur Trend Pause

Maybe the coolest selection for the new interieur trend Pause. The clear but calming and subtle grey tone only permits the oak characteristics to shine through very slightly. The brushed surface reflects the character of the oak very well in terms of its feel. The planks are supplied with a chamfer on the longitudinal side.
